FS – E-learning Hub

Learning Management System (LMS) = Online classes = Collaboration + Assessment + Tracking

The FS E-leaning Hub is a hosted solution that caters to all your schools learning management needs through the following functionality.

Responsive Interface

The **E-learning Hub** is designed to be responsive and accessible, the interface is easy to navigate on desktops, laptops tablets and mobile phones.

This new design provides a simple, lightweight, efficient, compatible, low-tech browser interface.

Look and Feel

The overall interface experience is directed at making the new user feel comfortable and familiar.

Clear *guiding icon*s and *instructive labels* supply the user with a helpful guide.

Dashboard

Our e-learning solution has a customizable "**Dashboard**" for providing students with links to their various subjects and activities within them.

These activities can range from unread forum posts, calendar appointments and new upcoming assignments.

Classroom

The classroom area is where you as a teacher adds resources and activities for students to complete.

It might be a simple page with downloadable documents or it might be a complex set of tasks where learning progresses. through interaction.

Manage the learning effectively and generate reports that help you make informed decisions.

Activities and Assessment

There are over 12 different types of activities, below are just a few examples:

- **Assignments** - Grade and give comments on uploaded files and assignments created on and off line
- **Glossary** - Enables participants to create and maintain a list of definitions, like a dictionary
- **Lesson** - For delivering content in flexible ways
- **Quiz** - Set quiz tests, which may be automatically marked and feedback to correct answers shown
- **SCORM** - Enables SCORM packages to be included as course content

Communication and Feedback

Email and internal communication takes place in various forms and the modules below help facilitate this process:

- **Chat module** - Allows students and teachers to have a real-time synchronous discussion
- **Feedback module** - For creating and conducting surveys to collect feedback

Collaboration

To support in collaboration, forums and wikis can be enabled on a class or topic basis.

- **Forum** - Allows users to have asynchronous discussions
- **Wiki** - A collection of web pages that anyone can add to or edit
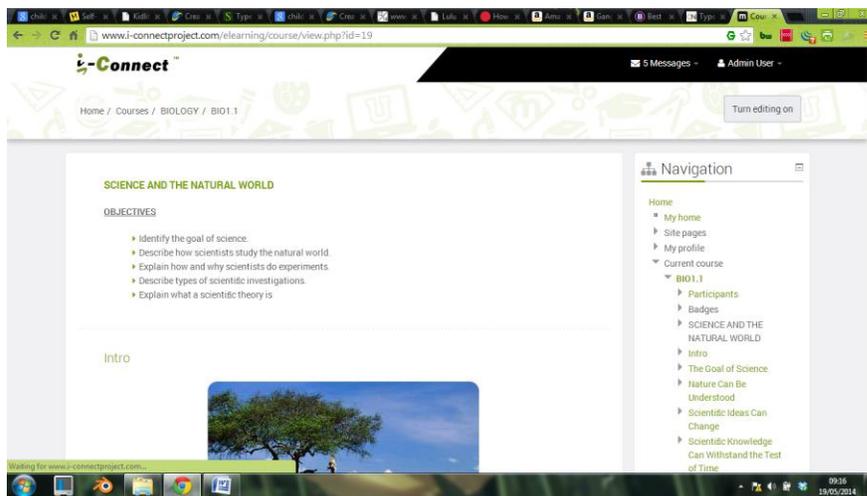

Tracking and Reports

Our LMS contains a wide array of reports covering

- Activity completion
- Course completion
- Site usage
- Participation etc

Science Content: We supply readymade content for Physics, Chemistry, Biology, Core Science and Mathematics, covering SS2 and 3.

We have built a large suite of world class quality interactive content and more is being added daily.
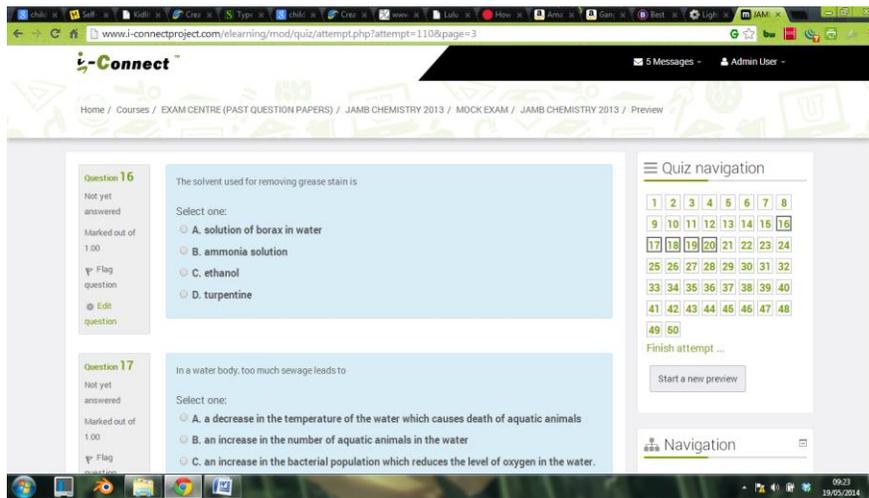

- **Bite-size courses** - These courses are broken down into small bite-size topics, which support quick consumption, better retention and are perfect for revision.

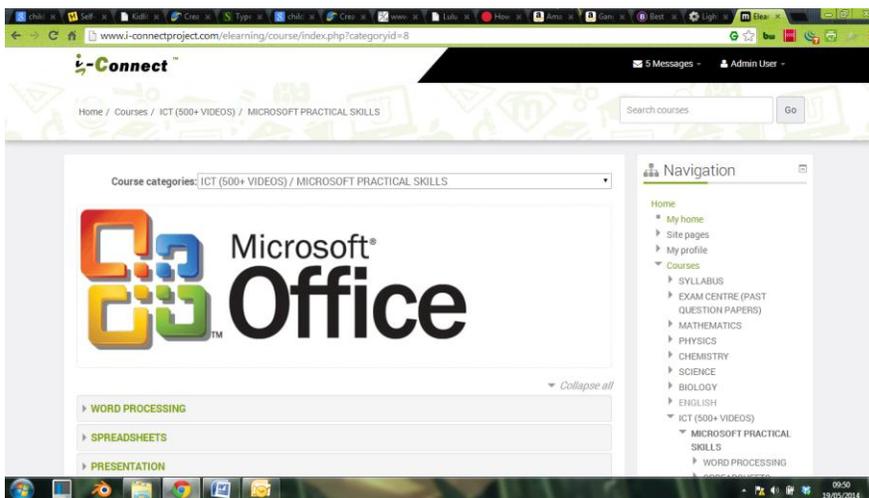

- **Simulations** - We have created innovative simulations that help explain abstract topics and create greater engagement and understanding.

- **Exam Centre** - We have thousands of exam questions cover the sciences and you can even add your own. The online exam can be timed, automatically marked and feedback given.

- **Microsoft Training Center** - We offer over 500 tutorials and videos covering Microsoft Word, PowerPoint, Excel and Outlook.

Live Demo - We have opened up some of our content for you to see.

Customization

The FS E-learning Hub comes in **THREE** forms:

Plug and Play : This give your students access to our all our content and exam centre, anywhere and at anytime.

Plug, Play and Edit : This allows teachers to use the entire platform to setup courses, collect assignments and create tests and still use and edit the content we provide.

Mobiles and Tablets running locally : This is similar to "Plug and Play" but all content is stored locally on customized tablets and no internet connection is required.

We offer our platform on a per users basis which gives you the customer more flexibility depending on the amount of students you want enrolled.

Customize the FS LMS to fit your school's requirements
